Various updates

Paul Millar

WG3 lead

Some quick updates (CB-related)

- As reported last WG3 meeting, some concerns were raised during meeting with CB chairs to discuss the HIFIS collaboration proposal.
- With the help from Julia Hauk, it has been established that creating a “LEAPS” VO in Helmholtz AAI will not affect LEAP’s existing use of DESY Sync-n-Share service.
- The HIFIS collaborative tools proposal was to be discussed at the CB meeting 2023-05-25, but they ran out of time.
- Discussion is now scheduled for next CB meeting: ~2023-07-06.
- We’re now “only” waiting for an agreement on the Acceptable Use Policy (AUP).

Some quick updates (RDB meeting 2023-05-25)

- **INFRA-2024-TECH-01-01** evaluation results are being collated and shared with GA by 2023-06-12, in time for GA24 2023-06-22.
- Aim for LEAPS to become a AISBL **legal entity by end of 2023**; beginning of 2024 the latest.
- Next **DL PL meeting** will be (in person) 2023-09-28/2023-09-29 in Trieste, Elettra.
- **HIFIS collaborative tools** proposal was presented:
 - Concern raised about possible overlap with DL HR4
 - Spoke with Antonio Bonucci: he sees no problem, rather this would be “synergetic” with his efforts in HR4.
- WG5 are apparently unaware of **FAIR data** (and OU’s potential role)

Some quick updates (Science | Business)

- Two day meeting 2023-05-22/2023-05-23 on “Digital Sector”
Physically at Brussels, remote participation for the first day only.
- Panel discussion, focusing on very high-level concepts.
- Topic: **AI**
 - AI: can we trust the results?
 - “The AI act” – proposed EU law to govern AI
 - “Unleash the data” – building a more data-driven economy; e.g., via the European Data Governance Act (DGA)
- Topic: **Security space**
 - Ransomware attacks
 - Possible cyber resilience act
- With comments from industry (Microsoft)

Some quick updates (misc.)

- More contributions to our WG3 webpages: thanks go to Zdeněk!
- We now have the **leaps-wg3.eu** domain. We can use this for SIG mailing lists, our web-page, etc.
