

SRitp workshop: LUXE physics and SFQED

Sunday 10 September 2023

Session 3: Strong field QED theory and phenomenology part 3 (10:00 - 13:15)

-Conveners: Daniel Seipt

time	[id] title	presenter
10:00	[7] Flying focus beams as a tool to investigate strong-field physics	DI PIAZZA, Antonino
10:50	[9] Laser-driven pair production: semi analytical model for the shower regime and some insights into the avalanche regime	RICONDA, Caterina
11:40	Coffee	
12:15	[8] Plasma harmonic generation for highly efficient Breit-Wheeler pair creation	Dr TANG, Suo
