6th Plenary meeting

- When: 2023-10-18/2023-10-20 (Wednesday to Friday)

- Where: SOLEIL / ~Paris.

- Link: https://indico.synchrotron-soleil.fr/event/60/

- Our direct contributions:

  - 2023-10-18 (Wednesday): 15:00–17:00

    "Parallel meetings of SG and WGs" (i.e., WG3)

  - 2023-10-18 (Wednesday): 17:45–18:45

    "Parallel meetings of LEAPS projects" (i.e., OSCARS)

  - 2023-10-19 (Thursday): 08:30–10:00

    "Reports from SGs and WGs" (i.e., WG3)

6th Plenary meeting: WG3 session (2023-10-18; 15:00–17:00)

- Do we want this? What should we discuss?

LEAPS
League of European
Accelerator-based
Photon Sources

6th Plenary meeting: OSCARS session (2023-10-18; 17:45–18:45)

- 20 min presentation (calls organisation and criteria) probably by J.F. and Sophie.

- 40 min brainstorming for open calls ideas with participants

- Meeting will be hybrid

- Further details to be hammered out via email

- Should we invite other LEAPS people? In particular WG5 (edu) and WG6 (users)?

6th Plenary meeting: Reports from WGs (2023-10-19; 08:30–10:00)

- Given the total scheduled time and the list of WGs/SGs to get through, we will likely have a very short slot (~5 mins)

- From conversations with CB, they anticipate providing a template presentation for the WGs/SGs to complete.

- I suggest Majid and I create a 1st draft, based on the template, which we circulate over the mailing list for comments.
