Jacob Tremblay

Stefan Wagner

2. Status of WP 3 activities

2.1 Alexander

- Status of deliverables D-WP3-1 and D-WP3-2
 - Document transferred to PUNCH4template template.
 - The (extensive) feedback from Christiane needs to be incorporated.
- His time to work on the template is limited.
- Makarim's contract ends in a few months.

2.1 Jacob

- He discussed with colleagues whether there might be a general interest in methods for converting old Effelsberg data. The answer is "no": the required software must be developed explicitly for the problem.
- He did not have time to continue working on the deliverable.

3. Next steps

- Alexander
 - He will organize a meeting with Makarim to incorporate Christiane's feedback into the template and invites TA6 members to attend.
- Jacob
 - He will send an email to his supervisor to facilitate an official handoff to his successor. In this mail he will attach a short status report.

4. AOB

- Next WP-3 meeting
 - Dec. 2023

Thank you !
