

Tutorial MicroTCA Management

“How to become a MicroTCA expert – this year: within 25 minutes”

12th MicroTCA Workshop for Research and Industry

DESY, Hamburg

December 5th – 7th, 2023

UNCLASSIFIED

| 1 | © 2023 N.A.T. GmbH | UNCLASSIFIED | All trademarks, brands and logos are property of their respective owners

12th MicroTCA Workshop, DESY Dec 5th – 7th 2023, “Tutorial MicroTCA Management” by Heiko Koerte

1

Agenda

- About N.A.T.
- From ATCA to MTCA - two well connected standards
- Why do we need management?
- What is behind the management?
- How does it work?
- What can you do?

| 2 | © 2023 N.A.T. GmbH | UNCLASSIFIED | All trademarks, brands and logos are property of their respective owners

12th MicroTCA Workshop, DESY Dec 5th – 7th 2023, “Tutorial MicroTCA Management” by Heiko Koerte

2

About N.A.T. – who we are

- Gesellschaft für **N**etzwerk- und **A**utomatisierungs-**T**echnologie mit beschränkter Haftung => **N.A.T.**
- Founded in 1990
- Proud to provide quality "made in Germany"
 - since more than 33 years by 25 highly professional employees
- Privately owned and owner lead business
- Own purpose-built building of more than 1,600m² (17,222ft²) with on-site centers for
 - hardware and software design
 - pre-manufacturing and test + repair

| 3 | © 2023 N.A.T. GmbH | UNCLASSIFIED | All trademarks, brands and logos are property of their respective owners

12th MicroTCA Workshop, DESY Dec 5th – 7th 2023, "Tutorial MicroTCA Management" by Heiko Koerte

3

Agenda

- About N.A.T.
- From ATCA to MTCA - two well connected standards
- Why do we need management?
- What is behind the management?
- How does it work?
- What can you do?

| 4 | © 2023 N.A.T. GmbH | UNCLASSIFIED | All trademarks, brands and logos are property of their respective owners

12th MicroTCA Workshop, DESY Dec 5th – 7th 2023, "Tutorial MicroTCA Management" by Heiko Koerte

4

Quick Look At ATCA AMC Modules

- Initially developed as function extension for ATCA Boards
- Fully integrated into the ATCA IPMI management structure
- Plugged into a so called ATCA Carrier
- Hot Swap capability

| 5 | © 2023 N.A.T. GmbH | UNCLASSIFIED | All trademarks, brands and logos are property of their respective owners

12th MicroTCA Workshop, DESY Dec 5th – 7th 2023, "Tutorial MicroTCA Management" by Heiko Koerte

5

Quick Look At ATCA ATCA carrier – the environment an AMC module lives in

- Idea for MTCA: directly plug AMC onto backplane
- Requires "virtual carrier" providing
 - Power, management, CLK, Switching

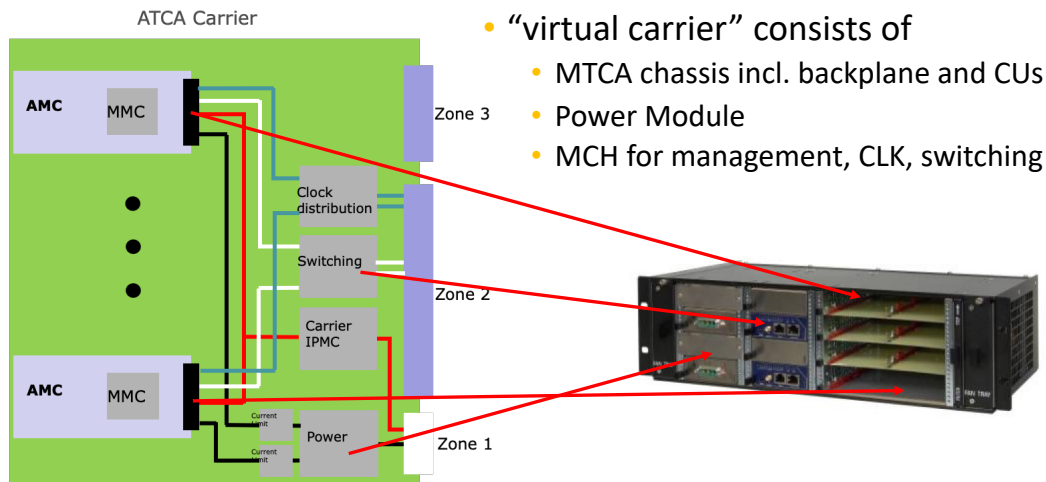

| 6 | © 2023 N.A.T. GmbH | UNCLASSIFIED | All trademarks, brands and logos are property of their respective owners

12th MicroTCA Workshop, DESY Dec 5th – 7th 2023, "Tutorial MicroTCA Management" by Heiko Koerte

6

Quick Look At ATCA How to migrate from ATCA to MTCA

| 7 | © 2023 N.A.T. GmbH | UNCLASSIFIED | All trademarks, brands and logos are property of their respective owners

12th MicroTCA Workshop, DESY Dec 5th – 7th 2023, “Tutorial MicroTCA Management” by Heiko Koerte

7

Agenda

- About N.A.T.
- From ATCA to MTCA - two well connected standards
- Why do we need management?
- What is behind the management?
- How does it work?
- What can you do?

| 8 | © 2023 N.A.T. GmbH | UNCLASSIFIED | All trademarks, brands and logos are property of their respective owners

12th MicroTCA Workshop, DESY Dec 5th – 7th 2023, “Tutorial MicroTCA Management” by Heiko Koerte

8

Management Why do we need it?

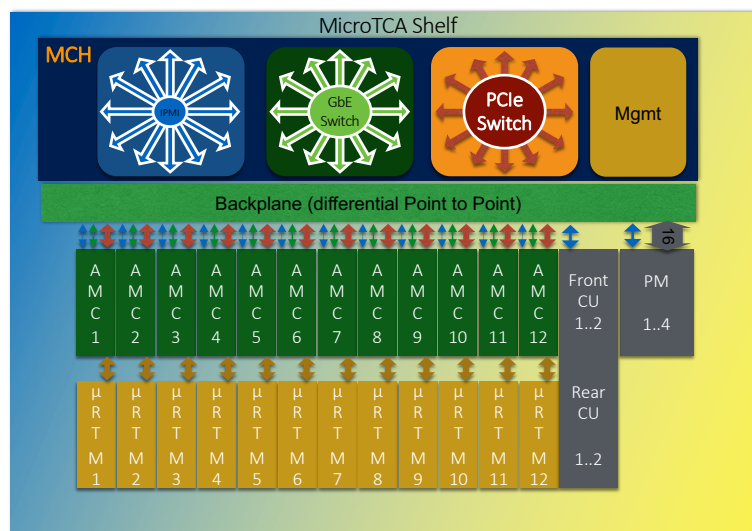

- “Who” is in my system?
 - i.e. list of devices (aka “FRU” for **F**ield **R**eplaceable **U**nit)
- What capabilities does the FRU have?
 - i.e. active connections (AMCs) or RPMs (CUs)
- How healthy is my system?
 - i.e. sensors for current, voltage, temperature
 - i.e. events
- How can I talk to my FRUs?
 - i.e. manipulation of sensors
- How can I service my system?
 - i.e. hot-swap FRUs

| 9 | © 2023 N.A.T. GmbH | UNCLASSIFIED | All trademarks, brands and logos are property of their respective owners

12th MicroTCA Workshop, DESY Dec 5th – 7th 2023, “Tutorial MicroTCA Management” by Heiko Koerte

9

MTCA.0.1.2.3.4 Infrastructure of a MTCA system

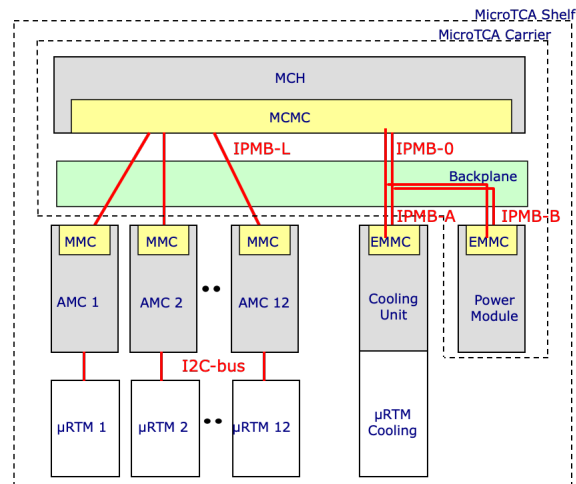

| 10 | © 2023 N.A.T. GmbH | UNCLASSIFIED | All trademarks, brands and logos are property of their respective owners

12th MicroTCA Workshop, DESY Dec 5th – 7th 2023, “Tutorial MicroTCA Management” by Heiko Koerte

10

Management in MTCA Physical Connections And Controllers

- IPMB-L
 - connects the MCMC on the MCH to the MMC on the AMC Modules
 - radial architecture
- IPMB-0.1
 - connects the MCMC on the MCH to the EMMC on the PMs and CUs
 - bussed architecture
- I2C-bus
 - connects the AMC to its μ RTM
 - the μ RTM is treated as managed FRU of the AMC

| 11 | © 2023 N.A.T. GmbH | UNCLASSIFIED | All trademarks, brands and logos are property of their respective owners

12th MicroTCA Workshop, DESY Dec 5th – 7th 2023, "Tutorial MicroTCA Management" by Heiko Koerte

11

Management in MTCA FRU M states

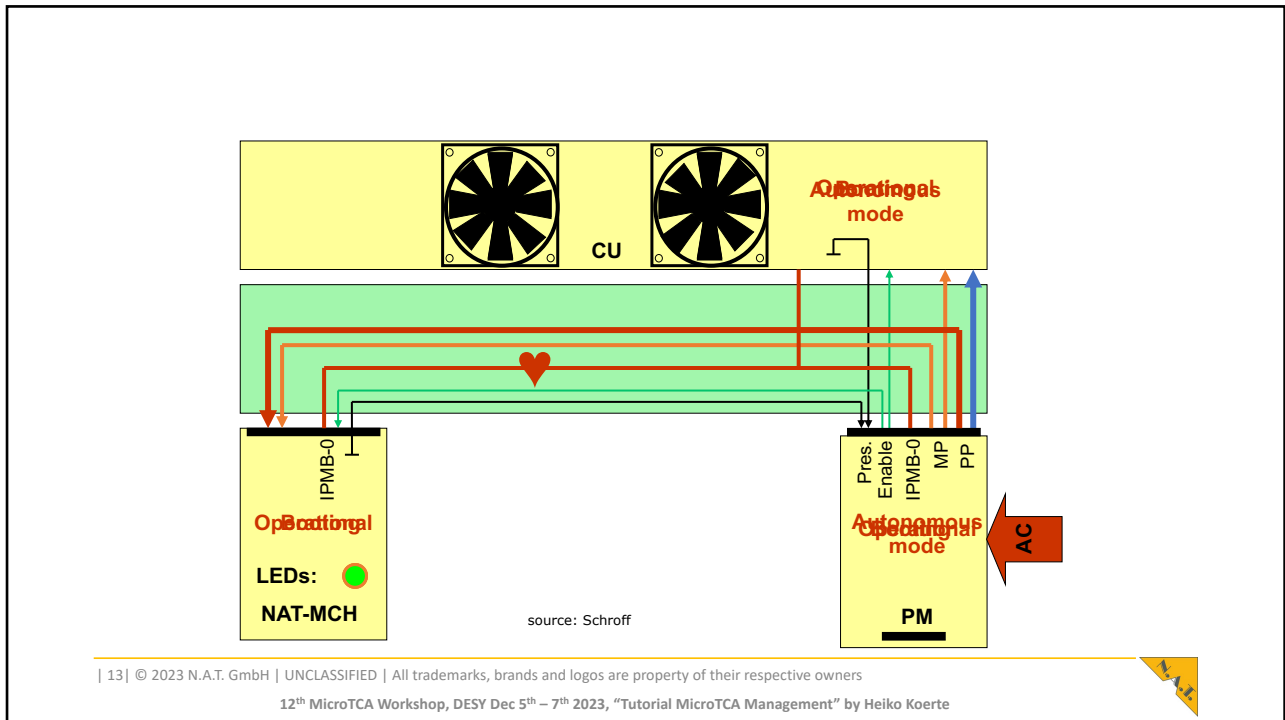

- PICMG 3.0 and AMC specifications define FRU states, aka „M states“
 - Activation
 - FRU proceeds to state M4
 - Deactivation
 - FRU proceeds to state M1
 - Error (coms lost)
 - FRU moves to state M7
- MCH decides if and when module can reach M4
- MMC uses a state machine to control hot-plug/swap procedure

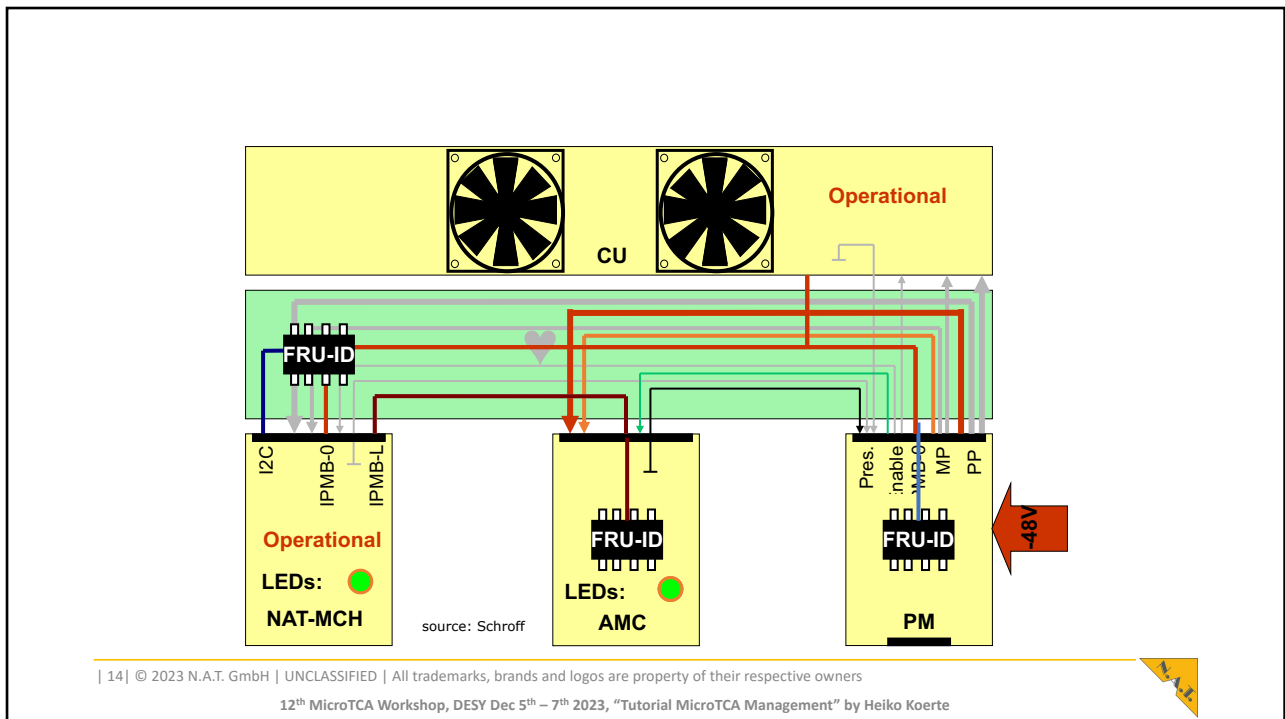

| 12 | © 2023 N.A.T. GmbH | UNCLASSIFIED | All trademarks, brands and logos are property of their respective owners

12th MicroTCA Workshop, DESY Dec 5th – 7th 2023, "Tutorial MicroTCA Management" by Heiko Koerte

12

13

14

Agenda

- About N.A.T.
- From ATCA to MTCA - two well connected standards
- Why do we need management?
- What is behind the management?
- How does it work?
- What can you do?

| 15 | © 2023 N.A.T. GmbH | UNCLASSIFIED | All trademarks, brands and logos are property of their respective owners

12th MicroTCA Workshop, DESY Dec 5th – 7th 2023, "Tutorial MicroTCA Management" by Heiko Koerte

15

Management in xTCA What is behind

- Idea of management:
 - Hardware supervision by software (remote control and monitoring)
 - Intelligent handling of events and actions
 - Abstraction of hardware functionality
 - Operating system independent

=> I²C (Inter Integrated Circuit)

=> IPMI (Intelligent Platform Management Interface)

| 16 | © 2023 N.A.T. GmbH | UNCLASSIFIED | All trademarks, brands and logos are property of their respective owners

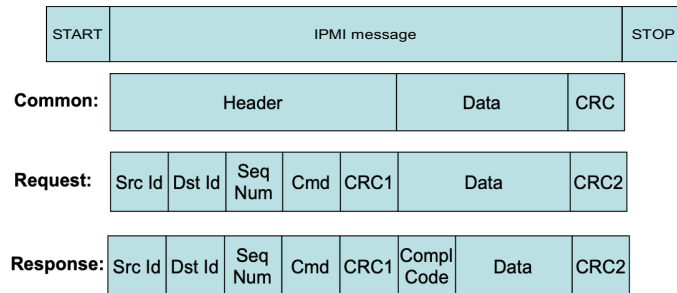

12th MicroTCA Workshop, DESY Dec 5th – 7th 2023, "Tutorial MicroTCA Management" by Heiko Koerte

16

Management in xTCA IPMI

- I²C (Inter Integrated Circuit): two wire multi-master capable bus
- IPMI protocol

- RMCP (**R**emote **M**anagement **C**ontrol **P**rotocol)

| 17 | © 2023 N.A.T. GmbH | UNCLASSIFIED | All trademarks, brands and logos are property of their respective owners

12th MicroTCA Workshop, DESY Dec 5th – 7th 2023, "Tutorial MicroTCA Management" by Heiko Koerte

17

Agenda

- About N.A.T.
- From ATCA to MTCA - two well connected standards
- Why do we need management?
- What is behind the management?
- How does it work?
- What can you do?

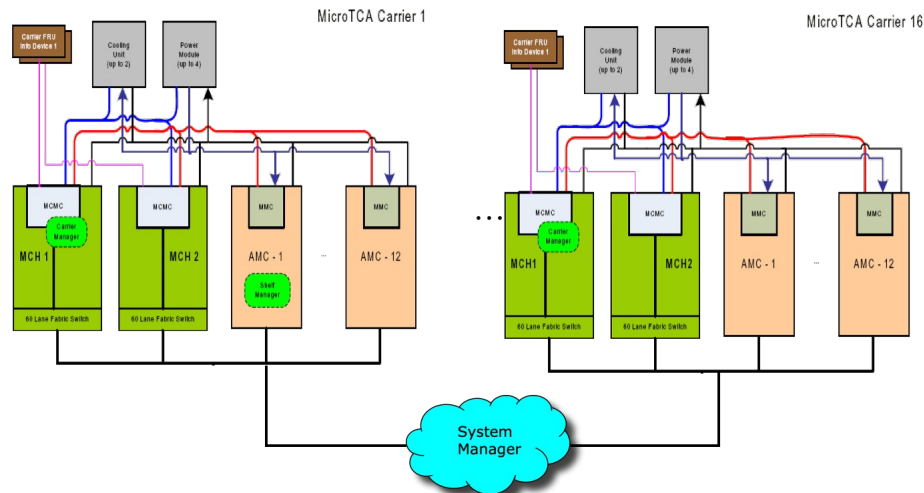

| 18 | © 2023 N.A.T. GmbH | UNCLASSIFIED | All trademarks, brands and logos are property of their respective owners

12th MicroTCA Workshop, DESY Dec 5th – 7th 2023, "Tutorial MicroTCA Management" by Heiko Koerte

18

Management in MTCA Management Structure

source: PICMG µTCA spec

| 19 | © 2023 N.A.T. GmbH | UNCLASSIFIED | All trademarks, brands and logos are property of their respective owners

12th MicroTCA Workshop, DESY Dec 5th – 7th 2023, "Tutorial MicroTCA Management" by Heiko Koerte

19

MTCA Carrier Hub (MCH) Adaptable to application demands

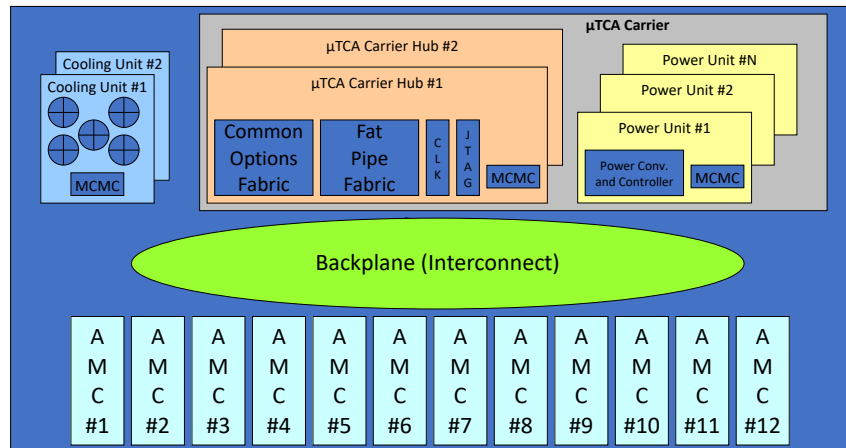

1. Basic Module with GbE-Switch to all AMC slots and **Management: carrier manager, shelf manager, system manager**
2. Clock Module for CLK #1-3 to all AMC slots
3. Fat Pipe Hub Module for AMC slots #1-6
4. Fat Pipe signals for AMC slots #7-12

| 20 | © 2023 N.A.T. GmbH | UNCLASSIFIED | All trademarks, brands and logos are property of their respective owners

12th MicroTCA Workshop, DESY Dec 5th – 7th 2023, "Tutorial MicroTCA Management" by Heiko Koerte

20

Excursus: fat pipes and clocks within a MicroTCA system

| 21 | © 2023 N.A.T. GmbH | UNCLASSIFIED | All trademarks, brands and logos are property of their respective owners

12th MicroTCA Workshop, DESY Dec 5th – 7th 2023, "Tutorial MicroTCA Management" by Heiko Koerte

21

Excursus: fat pipes

- Bits are transmitted one after the other over single data line
- Every data byte (8bit) is transformed to 10bit symbol that contains enough transitions

→ 8B/10B Coding

- Clock is recovered from serial stream
- Bidirectional transmission via dedicated Tx and Rx lines
 - One Tx/Rx pair is called "Lane"
- Multiple Devices interconnect by **switches**

| 22 | © 2023 N.A.T. GmbH | UNCLASSIFIED | All trademarks, brands and logos are property of their respective owners

12th MicroTCA Workshop, DESY Dec 5th – 7th 2023, "Tutorial MicroTCA Management" by Heiko Koerte

22

Excursus: fat pipes within a MicroTCA system

- Fat pipes aka fabrics
- Defined by PICMG AMC.x series
 - AMC.0 – Base Specification
 - AMC.1 – PCI Express (PCIe): gen 1, gen 2, gen 3
 - AMC.2 – Ethernet: 1GbE, XAUI, 10GbE, 40GbE
 - AMC.3 – Storage (SAS)
 - AMC.4 – Serial RapidIO (SRIO)
- Link width: x1, x2, x4, lanes aka “ports”
- Compatibility between AMC and switch on MCH ensured by e-keying
- All signal levels are LVDS => incompatibility could not cause damage

| 23 | © 2023 N.A.T. GmbH | UNCLASSIFIED | All trademarks, brands and logos are property of their respective owners

12th MicroTCA Workshop, DESY Dec 5th – 7th 2023, “Tutorial MicroTCA Management” by Heiko Koerte

23

Excursus: clocking within a MicroTCA system

- Defined by PICMG MTCA.0 and AMC.0
 - frequency limited to 100MHz by spec
 - from an MCH perspective: CLK1, CLK2, CL3
 - from an AMC perspective: TCLKx and FCLK
 - mapping between CLK1-2 and TCLKx/FLCK provided by the backplane
 - Compatibility between AMC and switch on MCH ensured by e-keying

| 24 | © 2023 N.A.T. GmbH | UNCLASSIFIED | All trademarks, brands and logos are property of their respective owners

12th MicroTCA Workshop, DESY Dec 5th – 7th 2023, “Tutorial MicroTCA Management” by Heiko Koerte

24

Con.	Region	Port	Function	non-redundant system (1x MCH)	redundant system (2x MCH)
Basic Side	Clock	TCKLA	Telecom Clock A	CLK1	1-CLK1
		TCLKB	Telecom Clock B	CLK2	1+2-CLK2
		FCLK	Fabric Clock or redundant TCLKA	CLK3	2-CLK1
	Common Options	0	1GbE	1-A	1-A
		1	redundant 1GbE		2-A
		2	SAS/SATA	1-B	1-B
		3	redundant SAS/SATA		2-B
	Fat Pipe	4	PCIe or 1GbE or 10GbE or SRIO	1-D	1-D
		5	PCIe or 1GbE or 10GbE or SRIO	1-E	1-E
		6	PCIe or 1GbE or 10GbE or SRIO	1-F	1-F
		7	PCIe or 1GbE or 10GbE or SRIO	1-G	1-G
Extended Side	Extended Fat Pipe	8	1GbE or 10GbE or SRIO		2-D
		9	1GbE or 10GbE or SRIO		2-E
		10	1GbE or 10GbE or SRIO		2-F
		11	1GbE or 10GbE or SRIO		2-G
	Extended Options	12	APS or Point-2-Point or rearIO		
		13	Point-2-Point or rearIO		
		14	Point-2-Point or rearIO		
		15	Point-2-Point or rearIO		
		TCLKC+D	Telecom Clocks C+D		
		17	1GbE or 10GbE or SRIO		
		18	1GbE or 10GbE or SRIO		
		19	1GbE or 10GbE or SRIO		
		20	1GbE or 10GbE or SRIO

25

MTCA Carrier Hub (MCH) Adaptable to application demands

| 26 | © 2023 N.A.T. GmbH | UNCLASSIFIED | All trademarks, brands and logos are property of their respective owners

12th MicroTCA Workshop, DESY Dec 5th – 7th 2023, "Tutorial MicroTCA Management" by Heiko Koerte

26

Agenda

- About N.A.T.
- From ATCA to MTCA - two well connected standards
- Why do we need management?
- What is behind the management?
- How does it work?
- What can you do?

| 27 | © 2023 N.A.T. GmbH | UNCLASSIFIED | All trademarks, brands and logos are property of their respective owners

12th MicroTCA Workshop, DESY Dec 5th – 7th 2023, "Tutorial MicroTCA Management" by Heiko Koerte

27

Management in xTCA What can you do?

- “Who” is in my system?
 - i.e. list of devices (aka “FRU”)
- What capabilities does the FRU have?
 - i.e. active connections (AMCs) or RPMs (CUs)
- How healthy is my system?
 - i.e. sensors for current, voltage, temperature
 - i.e. events
- How can I interfere with my FRUs?
 - i.e. manipulation of sensors
- How can I service my system?
 - i.e. hot-swap FRUs

| 28 | © 2023 N.A.T. GmbH | UNCLASSIFIED | All trademarks, brands and logos are property of their respective owners

12th MicroTCA Workshop, DESY Dec 5th – 7th 2023, "Tutorial MicroTCA Management" by Heiko Koerte

28

Summary

- About N.A.T.
- From ATCA to MTCA - two well connected standards
- Why do we need management?
- What is behind the management?
- How does it work?
- What can you do?
