

## Looking back over 10+ years experience with MTCA LLRF systems at DESY

*Tuesday 5 December 2023 17:30 (15 minutes)*

10 years have passed since the first LLRF systems based on the MicroTCA standard were installed at DESY. This contribution provides an overview on the different installations, their configurations, and how the modularity of MTCA systems was exploited to realize different LLRF architectures using similar blocks. Return on experience with these systems will be presented.
