Takeaways From the AM@LMU

Get started with evaluation preparation

- Revisit work plan and start filling evaluation template(s) with key points → TAs, MB, EB
Link to the DFG NFDI template
- **Suggestion: Discuss the WPs work plans in the coming TA7 meeting?, to answer questions: Is it still up-to-date?, what can we do, plans for the coming period (midterm report on 30 Sep. 2024)**

Get better in announcing results and in promoting services to the “outside” world.

- Make “results page public asap, define a mechanism for identifying “results” within the TAs and promoting them to the results page.
