- Monthly PUNCHLunch dates => every 3rd Thursday of the month, starting on 18 January

PUNCH Unplugged

Recommendations:

- Schedule TA meetings if possible within this week
 - Plan some short presentations/ reports of current results and work-in-progress
 - Plan plenty of time to answer questions
 - There are no stupid questions – even if they have been asked and answered before we should make sure to answer them in a way every user will be able to understand in the end (except for some back-end technologies which remain hidden from the user anyway)
 - Document all questions and possibly answers
 - Could be done via a dashboard
 - Christiane can provide a template
 - Encourage everyone to join one or two meetings outside their usual comfort zone as well (possibly plan within the TA)
 - MB and EB meetings will be open to all PUNCH members
-
- General Meeting => announcement of agenda and invitation to submit contributions will be sent around within the next days

- IAM4NFDI: call for Incubator Projects (deadline 22 December)
 - Kilian & Harry working on a proposal involving GitLab ...
- PUNCH publication policy
 - Feedback: minor points which could possibly be discussed by the Publication committee, such as list of authors for inter-TA publications and conference contributions
 - We consider the document ready for now, it will be announced and made available PUNCH internally
- Quarterly report Q4/2023: request for more input (on TA level as well as by PIs) => please contribute!
- PUNCH4NFDI will leave Twitter/ X by the end of the year => Mastodon account @punch4nfdi@nfdi.social

Thank you!
