

# Quantum chromodynamics: string theory meets collider physics

## Thursday 27 September 2007

### String theory (1) - Sem. 4a (14:30 - 16:00)

| time  | [id] title                                                                   | presenter             |
|-------|------------------------------------------------------------------------------|-----------------------|
| 14:30 | [52] Early Time Dynamics in Heavy Ion Collisions from AdS/CFT Correspondence | Prof. KOVCHEGOV, Yuri |
| 15:00 | [51] Isospin diffusion in thermal AdS/CFT with flavor                        | RUST, Felix           |
| 15:30 | [41] Flavors from time-dependent D7 embeddings                               | Dr GROSSE, Johannes   |
