

**LEAPS**

League of European  
Accelerator-based  
Photon Sources

Various updates

**Paul Millar**

WG3 lead

- **Potential change in CB liaison**
- Gastón (García López) from UAM informed me that he will be spending less involved with LEAPS in the future
- CB chairs have been informed. They will likely appoint a new WG3 liaison “in the future”.
- Our thanks go to Gastón for his help over the years.

## All-LEAPS AI/ML workshop

- We previously talked about having an all-LEAPS workshop on AI/ML.
- As promised, I brought up the topic at the RDB meetings (just before Christmas, and again in January)
- Some interest from other WGs
- Agreed to create a mailing list to discuss this further.
- This list now exists; I'll circulate details after the meeting.
- People who are interested can sign up.

## Helmholtz/HIFIS LEAPS VO now exists

- After much discussion, we now have a LEAPS VO in Helmholtz ID.
  - Short-term: myself and some DESY LEAPS support people are managing it.
  - Longer-term: Julia Hauk's replacement will take over.
- I've created a "WG3" group within the VO.
- Next step: populating the WG3 group with all of us.
  - I send an invitation (as an email).
  - You receive the email, log in and accept the invitation.
- Currently not working more details when it's fixed.
