

Various updates

Paul Millar

WG3 lead

AI/ML workshop

- Proposal: a cross LEAPS workshop targeting all aspects of machine learning within LEAPS facilities and with the output from LEAPS facilities.
- Some interest in RDB
- Mailing list created:
 - <https://lists.desy.de/sympa/info/leaps-ml-workshop>
 - leaps-ml-workshop@desy.de
 - <https://lists.desy.de/sympa/subscribe/leaps-ml-workshop>
- Would appreciate someone to help as list admin.
- Next step: invite members of RDB to join the list.

OptiBEAMS proposal now submitted

- Many thanks go to Majid in shepherding the process for our WP
- Now we have to wait to see if we're successful.
 - We will receive feedback within six months (September)
 - Other proposals received in July.

Helmholtz/HIFIS LEAPS VO now exists

- Next step: populating the WG3 group with all of us.
 - I send an invitation (as an email).
 - You receive the email, log in and accept the invitation.
- Proposal: I take membership of the WG3 mailing list as membership of WG3 and send invitations based on this.
- **VERY IMPORTANT:**
 - The process is incredibly SLOOOOW (it may take minutes)
 - When working in the webpages:
 - DO NOT reload the web-page, hit the “back” button or otherwise “retry” the process.
 - Go for a coffee and come back.

OSCARS projects
