RDB meeting #48

2024-05-30

RDB meeting

- LEAPS Block Grant
 - Final version of summary/narrative (Annex) is now available and distributed to LEAPS CB members to give it as much visibility as possible.
 - Good timing for EC's 2025–2027 cycle and prepared for FP10. The block grant could be a pilot project. The scope of this pilot project is currently unclear, including whether there would be any overlap with "LEAPS-INNOV II". More discussion at the forthcoming Plenary meeting.
- WG 1.1 discussing possible development of high-energy sensors.
- WG 1.2/WG1.3/WG2 mostly focusing on preparation for the LEAPS-INNOV review.
- WG4 LEAPS-INNOV representation at BSBF2024 (Autumn), contribution with round table on innovative and green procurement (from LEAPS-INNOV)

RDB meeting (part 2)

- WG6 Brochure on societal impact of research at LEAPS facilities. Very nice work between ESS & MAX IV, collective data on User Access to Ris.
- SG2 Brochure on recent research highlights at FELs (prepare by FELs of Europe) has been launched.
