**Mikrosymposium 2/3: Beamline Innovations: MS2/3 - Saal B (11:00 - 13:00)**

time	[id] title	presenter
11:00	[639] The combined soft and hard x-ray beamlines in SSRF and applications in the energy chemistry	SONG, Fei
11:20	[580] Commissioning Results of the SAPOTI Cryogenic Nanoprobe at the CARNAÚBA Beamline at Sirius/LNLS	GERALDES, Renan Ramalho
11:40	[931] POLYX: a new compact beamline at SOLARIS for X-ray microimaging and microspectroscopy in the 4 – 15 keV energy range	KOŁODZIEJ, Tomasz
12:00	[372] Highlights of the X-ray Nanoprobe CARNAÚBA Beamline at the SIRIUS/LNLS	TOLENTINO, Hélio
12:15	[237] A Next-Generation Hard X-ray Microscope for Sub-10 nm Imaging: 2D MLL optics for Rapid Nano-Tomography	NAZARETSKI, Evgeny
12:30	[39] The Mechanical Design and Construction of Transmission X-ray Microscopy (TXM) Endstation at TPS 31A2	CHEN, Bo-Yi
12:45	[309] Demand on Advanced Operando Characterization on Industrial Relevant Catalysts Using Combination of X-rays Based and Other Methods	ZIMINA, Anna
