

SRI 2024

Thursday 29 August 2024

Mikrosymposium 6/3: FELs: New facilities and Opportunitites: MS6/3 - Saal D (11:00 - 13:00)

time	[id] title	presenter
11:00	[43] Towards pulses with Orbital Angular Momentum at the European XFEL	GELONI, Gianluca Aldo
11:20	[1031] Recent results in ultrafast science at the LDM beamline	CALLEGARI, Carlo
11:40	[424] Development of superradiant THz sources at NSRRC	CHOU, Ming-Chang
12:00	[581] Enhancing Elastic X-ray Scattering via Transient Resonances	RONCHETTI, Daniele
12:15	[578] SABINA and SISSI 2.0: Two Underway Projects for Innovative THz/IR Sources Based on Particle Accelerators	MOLESSO, Lorenzo
12:30	[679] Thermal Stability of Multilayers for Use with High X-ray Intensities	ZAKHAROVA, Margarita
12:45	[42] High Photon Energy X-ray Absorption and Emission Spectrometers at the FXE instrument of European XFEL	HUANG, Xinchao
