

PUNCHLunch –

the online lunch seminar of the PUNCH4NFDI Consortium

Every third Thursday, 12:30-13:30 hrs: keynote and discussion

Thursday, 18 April 2024, 12:30 hrs:

Dr. Özlem Özkan (Helmholtz Metadata Collaboration)

Research Data Policies

Best Practices and Essential Elements

Abstract:

In this presentation, we will explore the critical importance of research data policies in guiding responsible management and sharing of data. We'll delve into the best practices in formulating data policies and examine the fundamental components that constitute an effective data policy. Specifically, we will address the necessity of clear titling, registration and availability, data management planning, and the alignment with FAIR (Findable, Accessible, Interoperable, Reusable) principles. The discussion will also highlight the role of

data policies in facilitating legal compliance, such as with the GDPR, and supporting the sustainability of research data management. Furthermore, we will look at real-world implications of effective data policy implementation and emphasize the economic and scientific benefits of adhering to well-established data management practices.
