NFDI and consortia

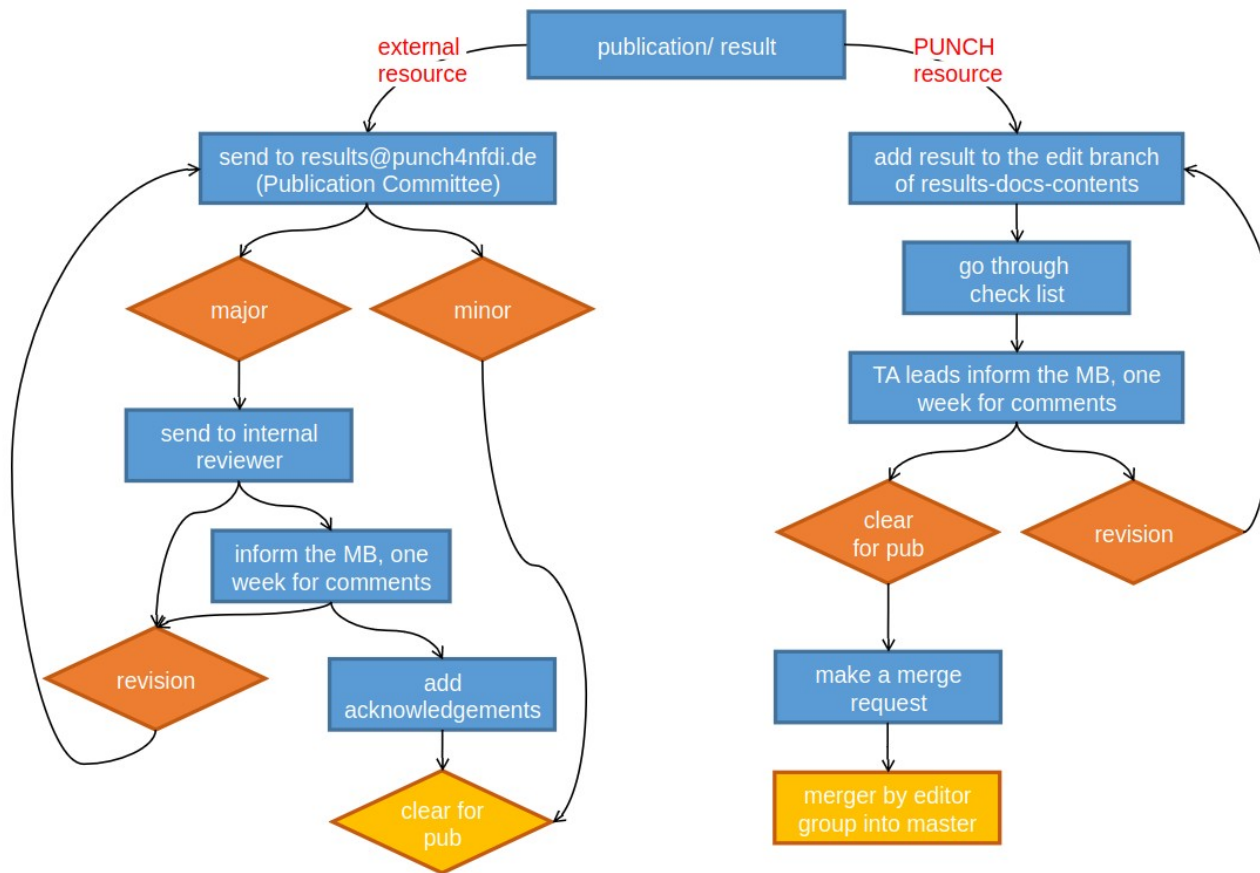

Information on second funding phase: <https://www.dfg.de/en/news/news-topics/announcements-proposals/2024/ifr-24-24>

- How can we fill in the data sheet (~~due next year~~)
- Who collects which information? e.g. publications collected on TA level?
- We should start “counting” as early as possible
- Unfortunately, the data sheet has become mandatory to be submitted with the interim report (i.e. 30.09.2024)
- Some information will be acquired “centrally” (TA1+), for the rest we are currently preparing a document to be shared with PIs of coapplicants and participants (so no collection of indicators via TAs)

Base4NFDI: all three projects from latest proposals (Jupyter4NFDI, RDM4NFDI, KGI4NFDI) receive funding

Follow-up workshop today (for spokespersons) on *commitment to basic services* to discuss text for renewal proposals on allocating resources to support adoption of and commitment to Base services.

Publication and presentation of PUNCH4NFDI results

Ideally, a short news statement is written with a new result published on the results page (or anywhere else) for the PUNCH web page www.punch4nfdi.de

Currently, only 1 deliverable report (TA6 WP5) is available on results page => make finalized reports available

Upcoming results (1 week review time for MB):
