

PUNCHLunch –

the online lunch seminar of the PUNCH4NFDI Consortium

Every third Thursday, 12:30-13:30 hrs: keynote and discussion

Thursday, 16 May 2024, 12:30 hrs:

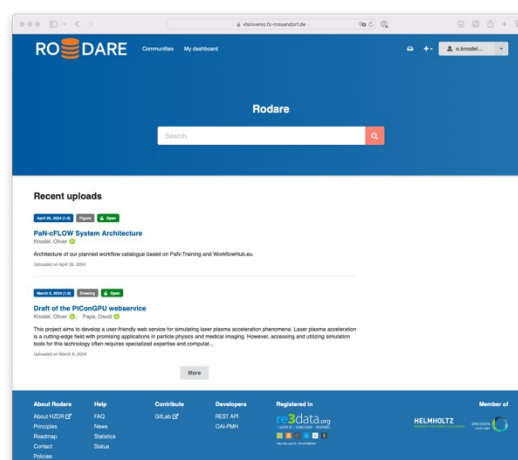

Dr. Oliver Knodel, Helmholtz-Zentrum Dresden-Rossendorf (HZDR)

InvenioRDM at HZDR: RODARE

Abstract:

The presentation will focus on the Rossendorf Data Repository RODARE at the Helmholtz-Zentrum Dresden-Rossendorf (HZDR). RODARE itself serves as a comprehensive solution for the management of research data and offers robust functionalities for storage, sharing and preservation. RODARE itself is a direct consequence of the HZDR Data Policy. RODARE is currently based on Zenodo and will be migrated to InvenioRDM in the near future.

The switch to InvenioRDM will simplify the future development and operation of RODARE and, in particular, the systematic curation of research data generated in our various scientific fields. This presentation will introduce the key features and benefits of InvenioRDM and emphasise its adaptability to the specific requirements of the HZDR infrastructure. Furthermore, the central role of RODARE in promoting open science principles by enabling transparent access to valuable research results will be highlighted. Through practical insights and case studies, the presentation emphasises the importance of InvenioRDM in promoting data-driven research practices and collaboration within the scientific community.
