

# New Sapphire Measurements

Novgorodova

# Sapphire #7 with and without source

# Two measurements of Sapphire #7 with source

**Small growth of current with time under source**

**Measurements are continued now in the lab**

**After source measurements for BCM1F can be started**

# BCM1F

- > DAQ on the pimpizord for LHC is working
- > README file is written
- > Baseline tool is in principle working, I search for an error to fix it.
- > Source measurements were checked to be able to measure through 2 PCB of BCM1F setup
