

International Symposium on Very High Energy Cosmic Ray Interactions (ISVHECRI 2012)

Friday 10 August 2012

Accelerator measurements - Leibniz-Hall (09:10 - 18:10)

time	[id] title	presenter
09:20	[21] The ATLAS Hadronic Physics Program and High Energy Cosmic Rays	PINFOLD, James
10:10	[22] New Results from the CMS experiment	DE ROECK, Albert
11:00	Coffee break	
11:30	[98] Characteristics of hadronic interactions in the forward direction	KATKOV, Igor
11:50	[60] Results from ALICE	GROSSE-OETRINGHAUS, Jan Fiete
12:30	Lunch break	
14:00	[61] Results from LHCb	VOLANSKY, Dmytro
14:40	[99] Results from TOTEM	EGGERT, Karsten
15:20	[101] The results from the LHCf experiment and future prospects	ITOW, Yoshitaka
16:00	Coffee break	
16:30	[102] Leading hadron production at HERA	BUNIATYAN, Armen
17:10	[103] Results from NA61/SHINE	UNGER, Michael
17:50	[104] New results from NA49 on hadron production in p+p and p+C interactions at SPS energy	FISCHER, Hans Gerhard MAKARIEV, Martin
