

# International Symposium on Very High Energy Cosmic Ray Interactions (ISVHECRI 2012)

## Wednesday 15 August 2012

### Detectors and methods - Leibniz-Hall (11:50 - 16:00)

time	[id] title	presenter
11:50	[153] Design of a Cherenkov telescope for Pamir-XXI Detector Array	GALKIN, Vladimir
12:10	[154] The 'PAMIR XXI' Project of a Complex Setup for the PCR Study in a Wide Energy Range $10^{14}$ - $10^{18}$ eV	BORISOV, Alexander
12:30	Lunch break	
14:00	[155] Alternative detection methods	BOESER, Sebastian
14:40	[156] Summary (theory)	SARKAR, Subir
15:20	[157] Summary (experiment)	KAMPERT, Karl-Heinz
