

International Symposium on Very High Energy Cosmic Ray Interactions (ISVHECRI 2012)

Wednesday 15 August 2012

Gamma-rays - Leibniz-Hall (09:00 - 11:50)

time	[id] title	presenter
09:00	[148] Review of TeV gamma-ray astronomy	MAIER, Gernot
10:00	[158] Some MAGIC contributions to the physics of cosmic ray interactions	GOZZINI, Rebecca
10:20	[149] Production cross-section of secondary gamma-rays and electron-positrons in p-p collision for the study of cosmic-ray astrophysics	SHIBATA, Toru
10:40	[150] Search for high-energy gamma-ray emission and upgrade of the GAMMA experiment on Mt. Aragats	MARTIROSOV, Romen
11:00	Coffee break	
11:30	[151] Generation of Cosmic rays in Historical Supernova Remnants	SINITSYNA, Vera Georgievna
