

# Pre-school material

*Monday 17 March 2025 13:00 (10 minutes)*

Material to get familiar with ROOT/matplotlib will be provided here in advance to the school.

For those not familiar with the concept of 4-vectors in special relativity, you can find an introduction lecture on 4-vectors (based on notes from [https://www.desy.de/~schleper/lehre/Physik\\_5.pdf](https://www.desy.de/~schleper/lehre/Physik_5.pdf)) to study in advance to the school.

## Summary
