

My term as LHC FWD convener has come to an end

For a summary of LHC Forward working group activities see [SM workshop talk](#)

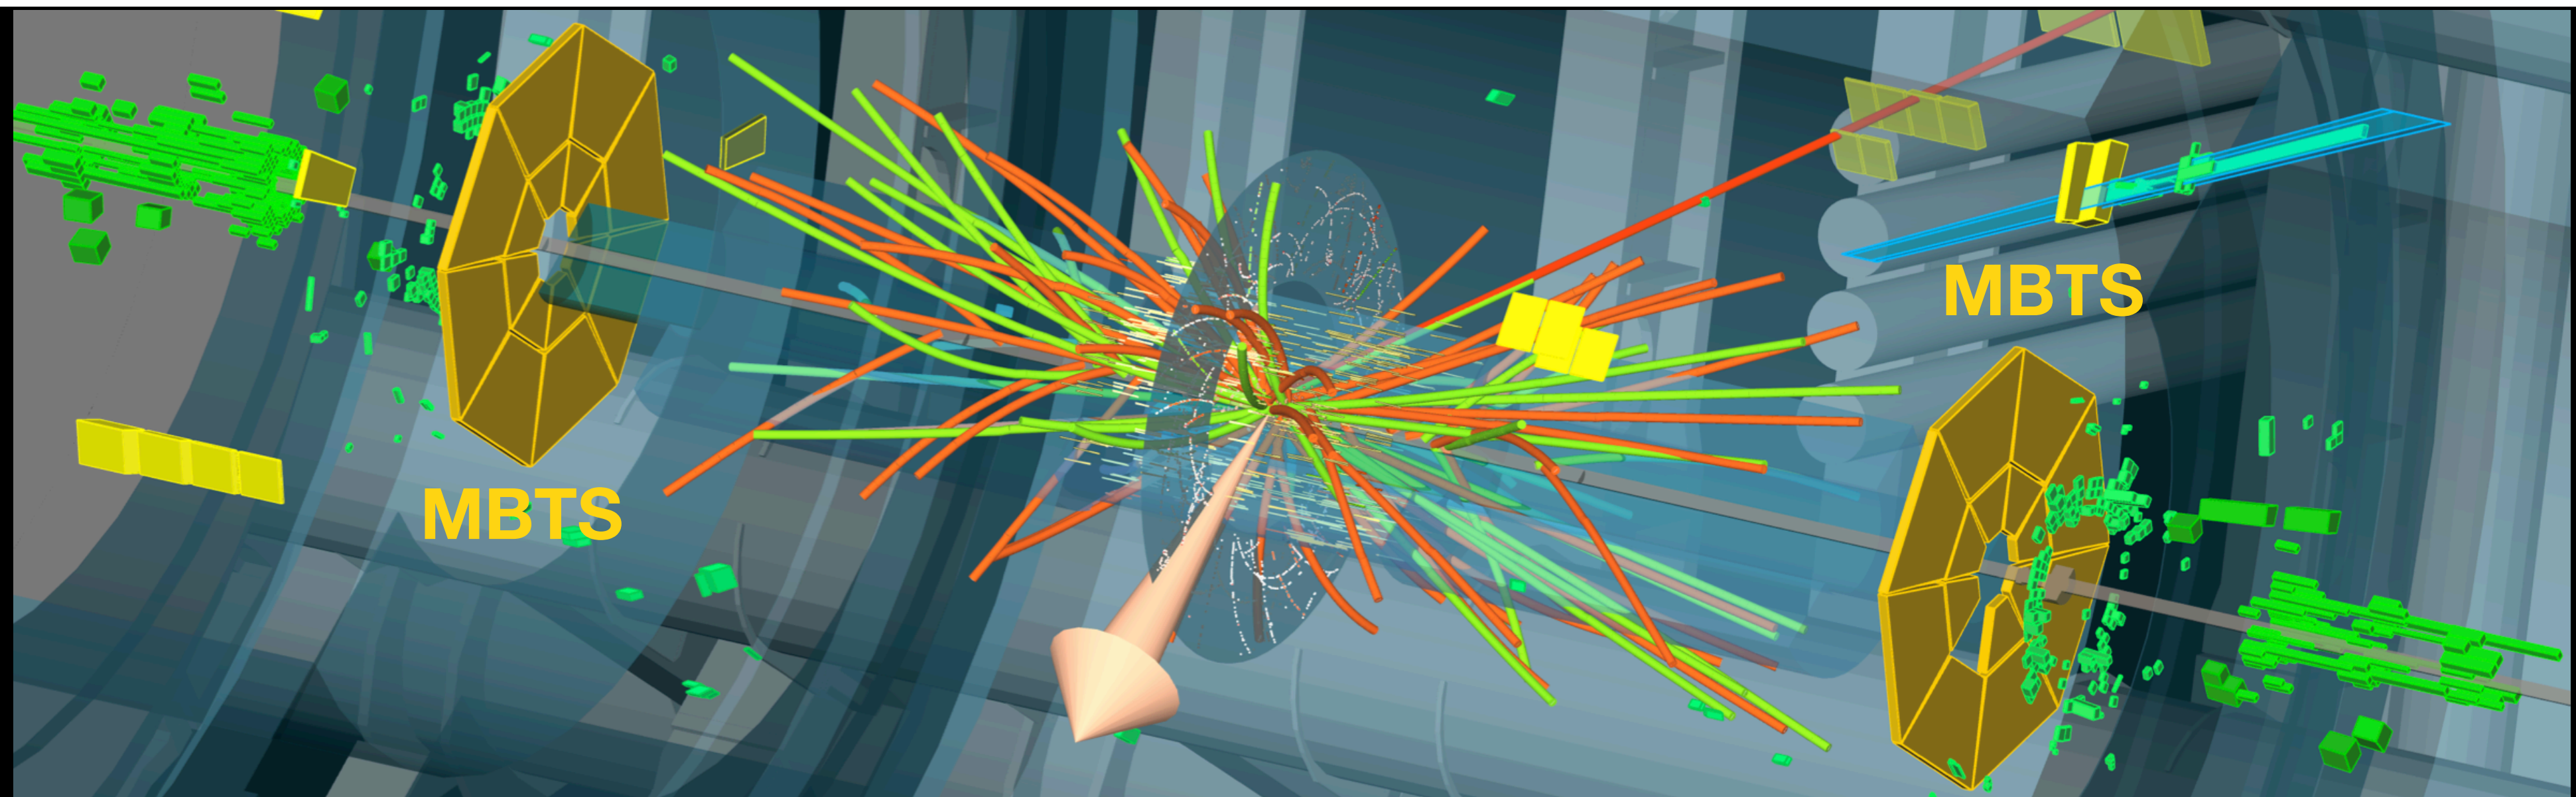

Run 3 Minbias resumes with new team members

Use low pile-up run, trigger on MBTS, measure track distributions

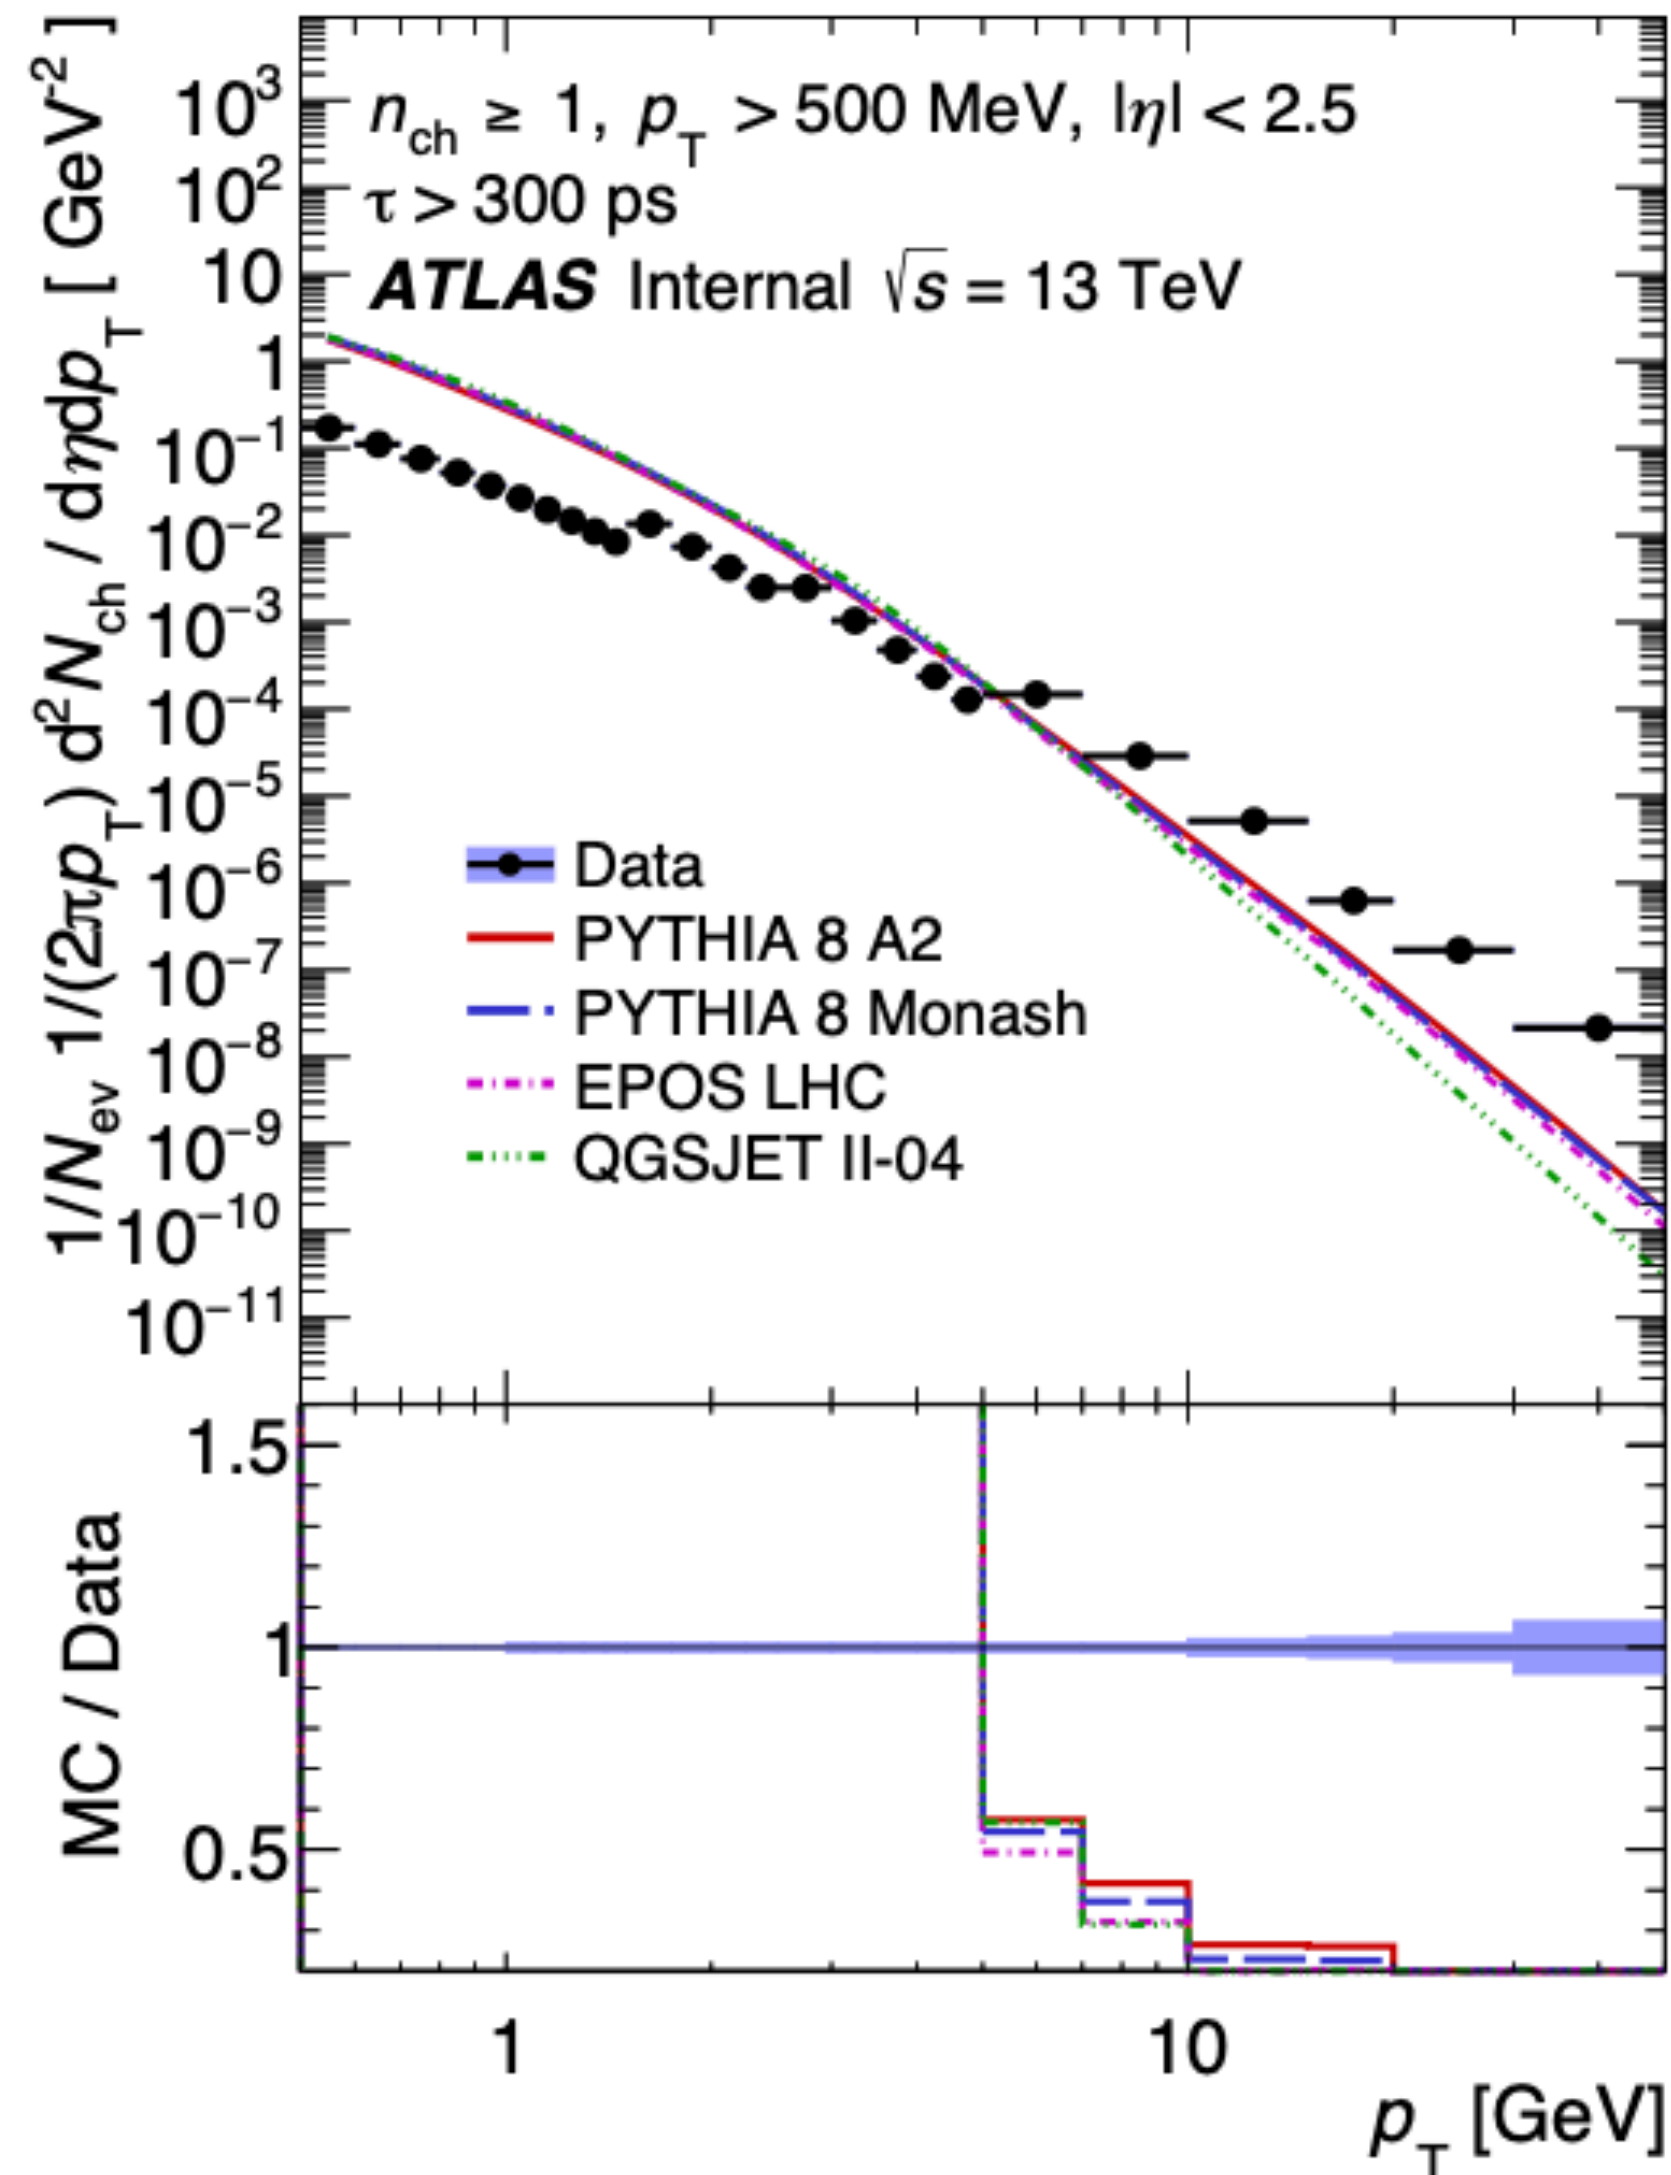

Example of minimum bias process: Single diffraction

<https://indico.cern.ch/event/1467719>

Run 3 rate vs p_T - Run 3 data vs Run 2 MC

Correctly normalising
by bin width
