

LEAPS special interest group on AI/ML

Friday 22 November 2024 09:40 (5 minutes)

LEAPS –the League of European Accelerator-based Photon Sources –is a strategic consortium initiated by the Directors of the Synchrotron Radiation and Free Electron Laser user facilities in Europe. Its primary goal is to actively and constructively ensure and promote the quality and impact of fundamental, applied and industrial research carried out at each facility to the greater benefit of European science and society. Within LEAPS, a special interest group has been established, focusing on artificial intelligence and machine learning.

This presentation provides an overview of this AI/ML group, how you can get involved and the benefits from doing so.
