

Collaboration on phase contrast imaging and tomography at PETRA III

Friday 22 November 2024 11:20 (6 minutes)

Over the last year a group of imaging enthusiasts has met to discuss current issues of phase contrast imaging and tomography at PETRA III. I will give a short introduction to the experimental modality and introduce some of the challenges we investigate currently.

Presenter: HAGEMANN, Johannes (FS-PETRA (PETRA III))

Session Classification: Flash Talks 2
