

Test-beam preparation

Wolfgang Lohmann

organisational

LUXE ECAL prototype test

TB22 (ALPIDE telescope

Preferred slot: Monday, June 9

Latest slot: June 22

Hardware requests

CMS-Pixel reference plane
Telescope Rotation stage
Telescope Translation Stage
AIDA2020 TLU
AIDA2020 Slow Control System
PCMAG (superconducting 1 T solenoid)
BRM (big red magnet / MD Dipole)
TeamViewer
Gas (aside N₂), specify in project description
Green 1t stages, specify amount in description
Others, please specify in the project description
---No hardware required---

Safety
Hazards (required) (Value Required)
Use of flammable gases **
Lasers brought by user group **
High voltage
Magnetic field
Radioactive sources **
Hazardous materials (other) **
Irradiated samples **
Others, please specify in project description **
---No Safety Hazards---
