

Workshop Concept & Goal for the Week

1. **Input:** Invited talks on sustainability and ethics and contributions from the community

- What is the current status in the ErUM-Data Community? What are perspectives from outside the community? Which approaches are effective? Which are new? What are concrete actions we can commit to? ...

2. **Discussion:** Guided plenary discussions

3. **Report:** Joint documentation of the key points in a workshop report

Workshop Report: a joint effort

- Goal: Document the workshop and record our findings and conclusion
- Procedure:
 - During the workshop, we all will record important points (in the report sessions, but the document is always open for editing).
 - After the workshop, the hub will revise the document and create a final report (further discussions with authors by email, maybe a meeting).
- Pre-structured document:
 - Table of contents
 - Sub-items for editing/addition
 - Further points may be changed/added as desired
 - Workshop notes (last page)
- Please add your initials before your added content: A_W
