# What we do

## Money makes the world go around

- 20.000 EUR were granted to the Student Council
- we decided to split this sum up into  $\sim 15.000$  EUR for travelling funds and  $\sim 5000$  EUR for the "PhD-days"
- next years 1st deadline: end of January

# What we do

## Travel funds

- Idea: Broaden scientific horizon of students (especially in summer / winter schools)
- This year: possible to fund all applications, whether they have been in the spirit of the idea above or not
- *WISH*: Have more applications, since there is lots of money available for you: Go for it!

# What we do

## Contributions to other topics

- PhD days – work literally in progress
- annual elections
- Evaluations of the lectures within the IRTG
- co-operation with Dolt
