

IRTG PhD days 2011

Tuesday 4 October 2011

Student session - Seminar room 052, building 69, ground floor (14:00 - 15:40)

-Conveners: Sergei Bobrovskiy

time	[id] title	presenter
14:00	Registration	
14:10	[17] IRTG student council	
14:20	[16] Three Open Questions of Early Universe Cosmology -- One Common Answer	Mr SCHMITZ, Kai
15:30	[8] DoIT - The PhD Initiative at DESY	Mr WENSKAT, Marc

Student session - Seminar room 052, building 69, ground floor (16:00 - 17:40)

-Conveners: Hannes-Sebastian Zechlin

time	[id] title	presenter
16:00	[12] Long-Lived staus - a promising signature at colliders	Mr HEISIG, Jan
16:20	[18] Cosmology meets neutrino physics	Ms DOMCKE, Valerie
16:40	[6] Transition-Edge Sensor: A new detector for the ALPS experiment	Mr DREYLING-ESCHWEILER, Jan
17:00	[9] Cosmic Rays in the Galactic Magnetic Field	Mr VAN VLIET, Arjen

Wednesday 5 October 2011

Student session - Seminar room 052, building 69, ground floor (14:00 - 16:00)**-Conveners: Benedikt Vormwald**

time	[id] title	presenter
14:00	[19] Quasi-stable neutralinos @ LHC	Mr HAJER, Jan
14:20	[14] Beyond the speed of light - Propagation of of the scalar field on Finsler spacetime	Mr PFEIFER, Christian
14:40	[15] Tunneling Solutions in Scalar Field Theory	Ms HECTOR, Cecelie
15:00	[13] A sufficient condition for de Sitter vacua in type IIB string theory	Mr RUMMEL, Markus
