## Career paths in science: Prospects at Forschungszentrum Jülich

*Thursday 18 September 2025 10:50 (30 minutes)*

Forschungszentrum Jülich is one of Europe's largest interdisciplinary research centres and is committed to excellence in science, innovation, and promoting young talent. In our presentation, we will provide an insight into the diverse work and research opportunities for physicists at FZJ –from scientific focus areas and individual career paths to framework conditions such as funding, networking, and work-life balance.

**Session Classification:** Physics and Profession
