

# DPG-Frühjahrstagung 2025 (Göttingen)

## Tuesday 1 April 2025

### Invited Topical Talks 2 / Eingeladene Vorträge 2 (13:45 - 15:45)

-Conveners: Michael Wurm

| time  | [id] title                                                                                       | presenter              |
|-------|--------------------------------------------------------------------------------------------------|------------------------|
| 13:45 | [67] The KM3NeT Ultra-High Energy Neutrino and its Possible Astrophysical Origins                | LINCETTO, Massimiliano |
| 14:15 | [68] Multimessenger astronomy with ultra-high-energy cosmic rays and high-energy neutrinos       | OIKONOMOU, Foteini     |
| 14:45 | [69] Peering into the Cosmos from Deep Underground -- Astroparticle Physics with Xenon Detectors | WITTEWEG, Christian    |
| 15:15 | [70] Feebly Interacting Particles in the Early Universe                                          | BECKER, Mathias        |

# Thursday 3 April 2025

## Invited Topical Talks 2 / Eingeladene Vorträge 2 (13:45 - 15:45)

-Conveners: Alexander Schmidt

| time  | [id] title                                                                                | presenter           |
|-------|-------------------------------------------------------------------------------------------|---------------------|
| 13:45 | [89] Searching for Axions and other Light Bosons at DESY                                  | EGGE, Jacob Mathias |
| 14:15 | [90] 14 years of coordinated outreach for particle physics: methods, impact and prospects | PLURA, Saskia       |
| 14:45 | [91] The Emerging Population of Seyfert Galaxies as Neutrino Sources in IceCube           | BELLENGHI, Chiara   |
| 15:15 | [92] First detection of neutrinos in water-based liquid scintillator at ANNIE             | MARTYN, Johann      |
