

## **Longitudinal Diagnostics at ARES using Transition Radiation and Smith-Purcell Radiation**

We will give an overview of the Smith-Purcell and Transition Radiation based longitudinal diagnostic methods employed at the ARES (Accelerator Research Experiment at SINBAD) linear accelerator to characterise femtosecond long electron bunches.

**Primary author:** STACEY, Blae (MIL (Injektoren und Linearbeschleuniger))

**Co-authors:** HILLERT, Wolfgang (UNI/EXP (Uni Hamburg, Institut für Experimentalphysik)); KUROPKA, Willi (MIL (Injektoren und Linearbeschleuniger)); VINATIER, Thomas (MPY1 (MPY Fachgruppe 1))

**Presenter:** STACEY, Blae (MIL (Injektoren und Linearbeschleuniger))

**Session Classification:** Poster Presentations
