# NFDI and beyond

Base4NFDI proposals: support by PUNCH for all 4 proposals (MC4NFDI, DALIA4NFDI, KGI4NFDI, DMP4NFDI)

*Base4NFDI NFDI Consortia Integration workshop* taking place on 5 March 10 – 12 => clarifying the status of the Base services and how consortia can start to integrate them into workflows.

- PUNCH participants: Christiane, Michael Z (maybe), anyone else?

*2<sup>nd</sup> Base4NFDI Services roadshow* (<https://base4nfdi.de/news-events/events/services-roadshow-by-base4nfdi-05-2025>)

Basic services under development will pitch themselves, show use cases, update us on their program, present how and who can access the service, and go into technical details and implementations. **What can you expect?** This event is split into two days with a different focus each day. The first day is about services targeted at infrastructure providers. The second day is about services targeted at researchers and users.

LLM workshop on 11 Feb, organized by Text+, KonsortSWD, MatWerk, 4DS, ... will probably become a series

Report by YSV for Strukturevaluation of NFDI published: <https://zenodo.org/records/14867064>

Representation of consortia at DPG spring meetings: new DPG president was once invited to a keynote speech in Karlsruhe, it might be of interest to trigger a closer collaboration between DPG and NFDI in general => what do you think? Should we take any action?

- should organise stronger representation at DPG meetings, concentrate on PUNCH communities
