Speakers: Federico Meloni (DESY), Matthew Wing (FTX (Technol. zukuenft. Teilchenph. Experim.)), Matthew Wing (UCL)				
12:40 PM	→ 1:00 PM	Discussion	🕒 20m	

How, who and when

Introduction with general topics

Roundtable of working groups for a quick update - **a couple slides is sufficient**

- Please report on any significant news / issues especially if they relate to other working groups or LUXE in general

We have included the working group leader as the speaker but also the deputy in case the working group leader cannot attend.

- Deputies are not included on the mailing list and would not ordinarily attend. You are responsible for delegating.

Every last Wednesday of the month (11:00 - 13:00)

- 30th April
- 28th May

Communications

Main communication channel within steering board: lux-steering-board@desy.de

General LUXE community

- New mattermost team
https://chat.desy.de/signup_user_complete/?id=9icyazf7hprxdbp9pggxqk73yw&md=link&sbr=su
- Plan to host one channel per WG - WG leaders to create?

Other topics for discussion

- Think about activities at CLARA. Slice test? Go there as collaboration?
- Need to setup dedicated discussion with Simulation WG to plan work to study new location
- Career development: improve a bit tracking of ECR development within collaboration (useful to get candidates from YIGs etc). Also advertise job opportunities more systematically?

Thank you!
