

Successes, challenges and lessons from the ZEUS data preservation program

Thursday 3 July 2025 16:00 (25 minutes)

The data of the ZEUS experiment at HERA and their usage have been converted to “preservation mode” in 2012, and new physics results have continuously been published from these data since then. A description will be given of the original plan, its implementation, the latest status of data, software and knowledge access, some corresponding results, and the related challenges.
