

ETMC feedback

ILDG Hands-on Workshop

July 11, 2025

P. Dimopoulos, J. Finkenrath, G. Koutsou

General feedback

- Overall good impression with ILDG 2.0
- Token-based authentication is appreciated
- No major issues following the exercises of this hands-on

Immediate plans for uploading

- Immediate plan is to upload $N_f = 2$ twisted mass + clover ensembles
- Largest volume is physical point, $48^3 \times 96$ ensemble
- Total storage requirements are 16 TB for $48^3 \times 96$
- During the hands-on sessions, we looked into modifying an ensemble XML from previous uploads to ILDG
