

# QCDSF feedback

(Utku Can with James Zanotti and Roger Horsley)

ILDG Hands-on Workshop

8-11 July 2025

## ☒ What worked:

- ☒ IAM, eduGain made life easier
- ☒ Command line tools / container
- ☒ Can build own workflow

## ☐ What confused:

- ☐ Getting a token, refreshing etc.
- ☐ Some under the hood things, but not really necessary from a user perspective

## ☐ What's next:

- ☐ Is the client/secret for uploading to ILDG same as hands-on?
- ☐ Getting permissions for the QCDSF storage spaces
- ☐ We'll update to the new ILDG schema for newer ensembles
- ☐ Ensembles almost ready to be uploaded to ILDG
- ☐ 8 ensembles can be uploaded (15-20 TB storage required)
