time	[id] title	presenter
14:15	[46] Introduction	OCHOA-RICOUX, Pedro
14:30	[29] Unoscillated spectrum prediction	BORGHESI, Matteo
14:45	[28] Detector response and calibration	BASILICO, Davide MALABARBA, Marco
15:00	[27] Reconstruction	PELICCI, Luca BIRKENFELD, Thilo

First JUNO analysis: Reports from the WP Conveners, Discussion - Lecture Hall (15:45 - 16:45)

time	[id] title	presenter
15:45	[26] Muon tagging using TT	
16:00	[25] Backgrounds predicted analytically/using MC	RIFAI, Mariam CHEN, Ze
16:15	[24] Muon tagging + IBD selection + data-driven backgrounds	MORALES, Cristobal CERRONE, Vanessa
16:30	[23] Fit and statistical machinery	SERAFINI, Andrea KUMARAN, Sindhujha

Thursday 9 October 2025

First JUNO analysis: Discussion of critical key points for IBD analysis: event selection and background estimations (08:30 - 10:00)

First JUNO analysis: Discussion of critical key points for IBD analysis: detector response comprehension and modeling (13:30 - 15:00)

First JUNO analysis: Reconstruction (15:30 - 16:15)

Friday 10 October 2025

First JUNO analysis: Next plans and final summary talk (11:00 - 12:30)
