Join us this summer on Wednesdays for our movie screenings! Everyone is warmly welcome to attend and discover the fascinating world of science on the big screen.

18th June 2025

A film that portrays the remarkable life of a renowned physicist, focusing on his groundbreaking work in theoretical physics and his battle with a debilitating illness.

25th June 2025

A genius dog and his adopted son travel through time in a youthfully inventive machine to witness history. When they break the rules, they must race to fix the past and save the future.

2nd July 2025

A little girl with extraordinary math skills is raised by her uncle in a small town. As her talent grows, her grandmother's plans spark a custody battle, challenging family values and balancing her gifts with her well-being.

9th July 2025

A boy and his marshmallow-like robot friend team up when mysterious events threaten the city. Together they become high-tech heroes whose skills could save the day.

23rd July 2025

In a dystopian world, a police officer uncovers a dangerous secret that could destabilize civilization. As he seeks the truth about his world and himself, he risks everything to uncover the mysteries threatening society.

**Wednesdays 16:00h , CSSB Auditorium
Building 15 DESY / Bahrenfeld Campus**
