DAS preparation meeting July 15, 2025

Tau short exercise

Andrea Cardini, Alexei Raspereza

General plan

- Introduction to tau Reco and ID in CMS
- 2 python notebooks based on exercises prepared for the DAS@CERN 2024:
 - > <https://gitlab.cern.ch/cmsdas-cern-2024/short-ex-tau>
 - > Tau reconstruction and DM identification (HPS/PUPPI)
 - > Tau identification (DeepTau + can update to add Pnet/UparT)
- Computing need:
 - > Storage space for a few tuples / computers that can access public tuples on EOS
 - > Can the students use swan / desy python notebooks?
