- Strengthen **knowledge exchange** between communities ✓
- Drive **integrated understanding of fundamental physics** ✓

What's Next?

- Since most of us are DESY/Humboldt-based, we're planning a **follow-up dinner** here in Berlin/Brandenburg within the next three weeks.
 - A Doodle poll will be sent to all participants soon to find a date and location that works best for everyone.
 - To our external speakers: we're sorry a dinner didn't work during the conference, but we're truly grateful to have had you and look forward to further follow-up discussions!
