Meeting Notes

10th of June 2025

- SciCatCon 2025 update
  - Everything is ready
  - Option for remote participation for the presentation portion. It will be posted on the event page
  - Added information about facility update and topics for discussions on the event page
- Dataset Life Cycle
  - Continued discussion on permissions
  - PSI is currently using it
  - SOLEIL, ALS, and DESY are planning to use it
  - Currently dataset owners can change the information in dataset life cycle
  - Should we add a feature to control separately who can update life cycle?
  - We should review the name of the fields, their description and their intended usage.
  - PSI/OpenEM has a PR ready to address some of the permission issues
  - We should collect use cases, review them and use them to guide development effort
- Published Data workflow
  - DAPHNE contribution to SciCat effort has been allocated to streamline the management of the Published Data records, their status and how registration to DataCite works.
  - New workflow has expanded and well defined

- Scientific Metadata Validation
  - PR ready and approved
  - SI Units will be stored in Scientific Metadata, as they are now
  - New functionalities are available only for Dataset V4
  - PR includes tests
- Discussed about few BE issues
- Project road map
  - at SciCatCon we should discuss about setting a project roadmap
  - AS the project grows, we should develop a roadmap and do our best effort to stick to it.
  - By roadmap, we intend list of new features and when they will be available, list of obsolete features and when they will be removed or who volunteers to maintain them

Proposed Agenda
24th of June 2025

Due to the fact that SciCatCon 2025 will be running from the 24th to the 26th of June, the Collaborators meeting scheduled on the 24th of June is cancelled.

We will announce when will be the next Collaborators meeting after SciCatCon 2025
