

# Hello! I'm Annemarie!

I am a PhD candidate of the university of Frankfurt

In my studies I focus on the topic of

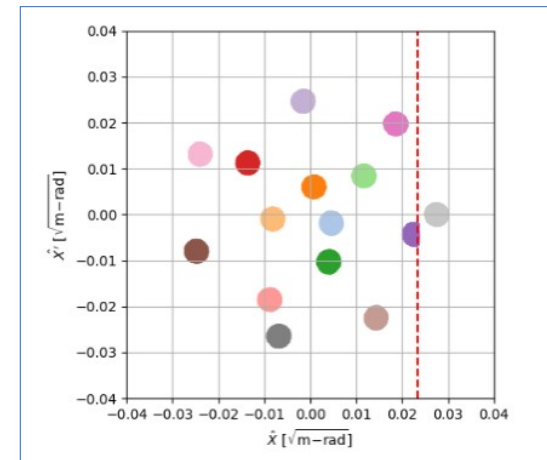

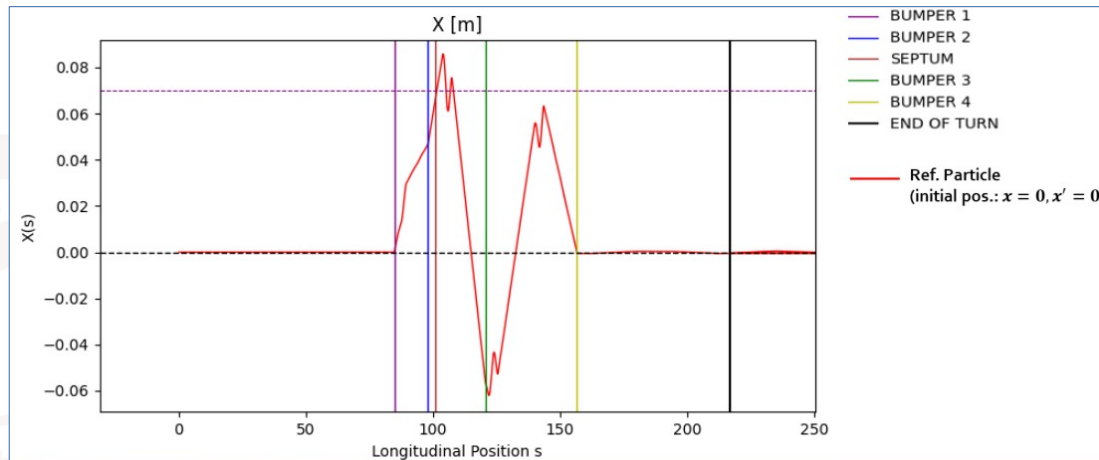

## 2-Plane Multiturn Injection

in collaboration with

I am a participant of

### Further studies:

2025: Machine Learning Power Week 2023: Clustering in Hadronic Calorimeters (co-author) with Hannah Bossi et al.: <https://arxiv.org/abs/2508.09938>

2025: Effects of beam plane correlation on injection efficiency – proceeding of IPAC 2025: <https://indico.jacow.org/event/81/contributions/7920/>

2021: Using ICA for Retrieving Teng Parameters – proceeding of IPAC 2021 <https://dx.doi.org/10.15120/gsi-2025-00453>
