

Session Program

26-27 Jan 2026

**Temporally Coherent Synchrotron Light
Sources**

Experimental techniques and science cases

TBA

Monday 26 January

13:30

Experimental techniques and science cases: Experimental techniques and science cases

Session | Location: TBA

13:30–13:50 **Incoherent diffraction imaging**

Speaker

Joachim von Zanthier

13:50–14:10 **Nuclear resonant scattering**

Speaker

Jörg Evers

14:10–14:30 **Nonlinear X-ray optics with longitudinally coherent sources**

Speaker

Christina Boemer

14:30–14:50 **Nuclear resonances and bright light sources**

Speaker

Yuri Shvyd'ko (TBC)

14:50–15:10 **TBC**

Speaker

Felix Lehmkuehler

15:10
