

# Workshop on Polarization and Energy measurements at the ILC

## Wednesday, 9 April 2008

### Common Session with Positron Source Meeting - S1 (14:00 - 19:15)

time	[id] title	presenter
14:00	[0] Welcome	
14:15	[1] ILC BDS Status & Requirements	ROSS, Marc
14:45	[2] Polarization Physics: motivation and requirements	Dr MOORTGAT-PICK, Gudrid
15:15	[37] Z-pole physics at the ILC with polarised beams: why is it needed?	WEIGLEIN, Georg
15:30	[28] Positron source status	CLARKE, Jim
16:00	[4] Electron source status	Dr BRACHMANN, Axel
16:30	COFFEE BREAK	
17:00	[3] Low energy polarimetry	Dr SCHÄLICHE, Andreas
17:15	[6] Spin Rotation before the Damping Ring	Dr MOFFEIT, Ken
17:45	[5] Models of polarisation at Linear Colliders (Report from Daresbury workshop)	Dr HARTIN, Anthony
18:15	[7] Overview of ILC high energy polarimetry	Dr LIST, Jenny
18:45	[9] Laserwire: photon vs electron detection	DEACON, Lawrence
