

# Workshop on Polarization and Energy measurements at the ILC

## Friday 11 April 2008

### Detector & Overall Performance / Analysis - S1 (14:00 - 20:15)

time	[id] title	presenter
14:00	[19] Activity of the Dubna Group on the ILC Beam Spectrometer Topics	DUGINOV, Victor
14:30	[23] Analyzing Power calibration	Dr LIST, Jenny
14:45	[25] Polarisation measurement from W+W-	MARCHESINI, Ivan
15:15	[26] Overall Polarimetry scheme	MOENIG, Klaus
15:45	[38] Discussion	
16:15	[20] Photodetector Studies for Polarimetry	Mr HELEBRANT, Christian
16:45	[21] Testbeam Results with SLD Polarimeter Detector	VELTE, Ulrich
17:15	Coffee Break	
17:45	[22] ILC Polarimeter Detector: prototype design	Dr KAEFER, Daniela
18:15	[24] Measurement of differential luminosity using Bhabha events	SAILER, Andre
18:45	[31] Personal Impressions of the Workshop	LORENZON, Wolfgang
19:15	[27] Workshop Closing
