

Workshop: German-Russian beamline at PETRA III Extension

Thursday 31 May 2012

Session III - FLASH seminar room, building 28c, room 201 (09:30 - 18:00)

time	[id] title	presenter
09:30	[10] Mechanochemical synthesis and investigation of nanosized materials for lithium-ion batteries	KOSOVA, N.
10:00	[11] Phase transitions in nanosized oxide materials	KANAEV, A.
10:30	[12] Micro- and Nanofocus X-ray Scattering Beamline at PETRA III	ROTH, S.
11:00	Coffee break	
11:30	[13] High resolution diffraction beamline P08	SEEK, O.
12:00	[14] Extreme condition beamline at PETRA III	LIERMANN, H.-P.
12:30	[15] X-ray diffraction and related experiments at multimegabar pressures	EREMETS, M.
13:00	[16] X-ray acousto-optics, prospects of application	BLAGOV, A.
13:30	Lunch	
14:30	[17] Scientific case and technical issues: general discussion
