MTCA.4 digitizers, RTMs and applications

Wednesday 12 December 2012 09:24 (12 minutes)

The 100 MSPS 16-bit SIS8300 digitizer was one of the first MTCA.4 products on the market. The card and its evolution, examples of matching RTMs and applications will be highlighted. The outlook will focus on new GSPS sampling speed developments in the Helmholtz Validation Fund framework.
