

MTCA SP Devices Digitizers designed for high speed applications in Physics

Wednesday 12 December 2012 09:48 (12 minutes)

Signal Processing Devices DAQ MTCA.4 offering for demanding applications in Physics is focussed on:

- high vertical resolution/ high speed digitizers needs
- extended real time data processing
- high channel count timing synchronization requirements

Primary author: Mr WEBER, Laurent (Signal Processing Devices AB)

Presenter: Mr WEBER, Laurent (Signal Processing Devices AB)

Session Classification: MTCA Product Presentations

Track Classification: Session 3: MTCA Product Presentations
