

Recommendation for ZONE3 classes to achieve enhanced AMC-RTM modularity

Wednesday 12 December 2012 15:45 (15 minutes)

To improve the compatibility and modularity of AMC and RTM boards we present a classification recommendation of the undefined Z3 connector pin assignment in the MTCA.4 standard for analog and digital applications. This implies a zone description, electrical specification, electrical protection sequence, E-keying and grounding and shielding options.
